Leadership in Training Program

For teens entering grades 9-10

The Leadership in Training (LIT) program is a leadership development curriculum created for 9th and 10th graders interested in becoming a camp counselor and developing their skills as a leader in their school and community. The eight week summer session provides leadership training, activity programming experience, self-awareness workshops, and team-building exercises for young teens.

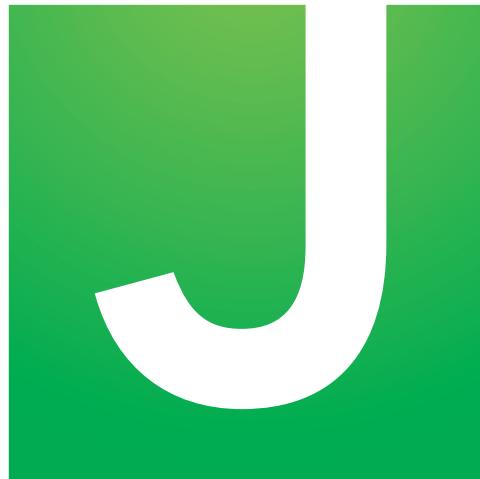

Camp JCC's LIT program is not for everyone; it is designed for teens that have an interest in working with younger children and have a desire to be in a leadership role. LITs will be selected based on an application process. Space is limited.
